

CALLED DOWN BY FRANCIS B. KEENE

White Ribboners Resent a Letter from Milwaukee Assemblyman.

SUFFRAGE VOTE A JOKE

No Sentiment in Either House to Grant Woman the Voting Franchise.

EXECUTIVE BOARD MEETING

The white ribbon army has broken camp, the council of war held in this city has ended and the generals and the greater part of the rank and file have returned to their various posts of duty to carry on the warfare which they characterize as the do everything policy.

Mrs. Stevens and Miss Gordon left for Chicago on the 7:15 train last evening. Mrs. Upham and Mrs. Hunt left this morning and the great majority of the visitors said goodbye to this city either last evening or this morning.

All seemed very much pleased with the convention and with the manner in which it had been received by Janesville and were all unanimous in declaring it the best as well as the largest convention ever held in Wisconsin.

Executive Board Meets

A meeting of the executive board was held in the parlors of the Congregational church this morning and considerable business of interest to the organization was transacted.

Quite a stir was created in this official body by the reading of a letter from Assemblyman Francis B. Keene virtually "calling down," as one of the women expressed it, Mrs. M. A. B. Smith of Madison, superintendent of the legislative department and Mrs. M. M. Sanders of Racine for statements made to the convention concerning the probability of a passage of a universal suffrage bill at the next session of the legislature.

It will be remembered by those who heard the ladies that both of them were very enthusiastic and stated that many legislators had expressed to them their belief that the woman suffrage bill would be passed two years from now.

Assemblyman Keene wrote to both Mrs. Smith and Mrs. Sanders, the two letters being the same almost exactly. They were written on the official paper of the legislature and Assemblyman Keene expressed himself as follows:

Assemblyman Keene's Letter

Milwaukee, Wis., May 23, 1901.—Mrs. M. M. Sanders, Racine, Wis. Dear Madam—I notice in today's Sentinel that you prophesy the passage, by the legislature, of a universal suffrage law. You were doubtless misquoted, for, as you well know, the constitution would require amendment—a six years' process—before such a law could be passed. In order that you ladies may not be deceived, I wish to tell you what you perhaps do not know concerning the history of the woman suffrage amendment recently introduced by Mr. Evans of Waushara. When the bill appeared on the assembly calendar, Mr. Evans made a long-winded speech in support of the resolution, during which word was passed around among the members to vote for its passage and third reading, for the sake of furthering the cause. Mr. Evans, and then it came up for a vote. The plan was carried out, and Mr. Evans is probably today blissfully ignorant of the real sentiment of the house. There was no considerable sentiment, in either branch of the legislature in favor of female suffrage.

I wish used to be a believer in woman suffrage, but study and experience have changed my opinion. If all women were of the sort represented by you of the W. C. T. U., it might be well to put the ballot in female hands. But your thousands would be swamped by tens of thousands totally unfit for intelligent voting. We suffer greatly as it is, from the ignorant male voters. Why add to the evil? Many of you women are infinitely better fitted for the franchise than thousands of men. But you are not all of womankind in Wisconsin, unfortunately. It is significant that many of the strongest opponents of woman suffrage are women. It is a pity that the average intelligence of woman makes it impossible to grant the franchise to her sex. Do not deceive yourselves as to the public sentiment of today. Very sincerely, yours,

FRANCIS B. KEENE.
Lois Russell, State Organizer.

The executive board voted to hire Miss Lois Russell, of Eau Claire, as state organizer for ten months, at a salary of \$50 per month and expenses. The board also voted \$6 to Janitor Mayhew, of the Congregational church, in recognition of his faithful and obliging service.

The place of holding the next state convention was not decided upon but will be decided at the board's midwinter meeting.

Closing Meeting Last Night

The closing meeting of the convention proper was held last evening and was largely attended. Mrs. Upham presided and after prayer by the Rev. W. A. Hall she presented the banners which she had offered for the greatest growth of membership, Dane county receiving the one offered to the local union. The banners

FINE PEARL BRINGS \$1,000

John Young of Brodhead Pays Big Price for Wisconsin Gem

Prairie du Chien, Wis., May 24.—Ed Goche of this city sold a thirty-four grain pearl, perfect in shape and luster, to John Young of Brodhead for \$1,000.

Babcock, Wis., May 24.—A pearl worth \$300 was found in a clam bed two miles south of Dexterville by Mrs. John Peterson. It will be sent to a jewelry company in New York.

CALL FOR SCHOOL TEACHERS

President Taft Wants 500 for Service in Philippines

Manila, May 24.—President Taft of the Philippine commission has cabled to Secretary of War Root, requesting him to send 500 of the appointed school teachers, one-fifth of whom will be women.

WATER POWER FROM A WISCONSIN DAM

P. L. Spooner Acquires Dam at Kilbourn City and Plans Electric Road Connecting Lakes

Madison, Wis., May 24.—Philip L. Spooner, brother of Senator Spooner, has purchased the water power of the Wisconsin river at Kilbourn City. The deal is one of importance to Kilbourn and Madison and also to Portage and Baraboo and the cities and villages between Madison and the Dells of the Wisconsin. Mr. Spooner declares that before next Christmas the Madison street railway, which he bought a few months ago, will be operated by electric power generated at Kilbourn, the same power being available for lighting heating, and turning machinery.

The most far reaching scheme is that of the undertaking of building an electric line to connect the chain of four lakes in the Madison district. The circuit of the lakes would be some sixty miles in extent.

CREW PERISHES IN MID-ATLANTIC

Steamer Croft with 26 Men Sinks—Bottle Picked Up Tells the Fateful Story.

London, May 24.—A bottle which was picked up at Granton today contained a message saying that the steamer Croft was sinking in mid-Atlantic.

The British steamer Croft of the Arrow line, laden with grain and general merchandise, sailed from New York, January 25, 1899 for Leith and Dundee, with a crew of twenty-five men and was never again heard of. She has long since been posted as missing at Lloyds.

TONTINE INSURANCE CAN BE GARNISHEED

Milwaukee Judge Decides That Surplus on Tontine Policy Can Be Attached for Debt.

Milwaukee, Wis., May 24.—Judge Ludwig in the Superior court today decided that the accumulated surplus of a tontine life insurance company is garnishable. The decision is the first of its kind in the state. In 1885 Alonzo Staw insured his life for \$15,000 for the benefit of his wife. After his failure in business at Chicago, Ellison & Co. of Philadelphia secured a judgment against him for \$11,000 and began suit to garnish the tontine surplus of \$3,802 which had accumulated on his policy. Judge Ludwig ordered judgment against the insurance company for the accumulated surplus.

TRAFFIC FIGHT IS ON THE HIGH SEAS

James J. Hill of St. Paul, Says the Struggle for the World's Carrying Trade Is On.

Minneapolis, Minn., May 24.—"The fight is on the high seas. The great traffic contest is between the Pacific on the one hand and the Suez Canal and Cape Horn on the other." This is the way that James J. Hill of the Great Northern put the traffic situation this morning.

"It is not a fight between this section, or city, or this road or the other," continued Mr. Hill. "At least so far as I am concerned. It is a big question of traffic development for the country at large. Our competitor is not here, not in New York, not in San Francisco; he is on the high seas.

"Our fight is national, or rather, it is international. Our problem is to get hold of the commerce of the Pacific ocean and bring it across the Pacific and across the United States, instead of allowing it to be diverted around the globe via the Suez Canal and Cape Horn."

EDGERTON WILD OVER SMALLPOX WELL DEVELOPED CASE IS FOUND

Waitress in a Restaurant Breaks Out With What All the Examining Physicians Call Smallpox—Many Were Exposed—Rush to Vaccinate.

The people of Edgerton are very much excited over the fact that a well developed case of small pox has been discovered in their midst, and that a large number of people have been exposed to the dreaded disease.

In January last Wm. McEwan came to Edgerton and started the Century restaurant. He did a large business from the start and fed as high as one hundred and fifty people in a day.

On Wednesday evening a waitress employed in the restaurant complained of feeling ill. It was noticed that she was broken out with a rash and she was advised to see a doctor at once. She went to Dr. Clary's office and after a thorough examination he pronounced it a well developed case of small pox. In order to be sure of it he called in Dr. McCheaney, who at once verified his opinion. Dr. Sutherland of this city, a member of the State Board of Health was summoned and after making a thorough diagnosis of the case concurred with the other two physicians. He at once took every

STATE FAIR RACES SPEED PROGRAMME

Fourteen Events Scheduled, Six Trotting and Eight Pacing, at State Fair Park Sept. 9-13

Milwaukee, Wis., May 24.—The annual Wisconsin state fair races in the Great Western circuit at Milwaukee will be held at the state fair park on September 9 to 13 inclusive. The speed program, which has just been issued, contains a list of fourteen events, six trotting classes and eight pacing, the last pacing event to be free-for-all. The purses amount to \$8,200, \$3,800 for the trotting and \$4,400 for the pacing. Besides this \$2,000 is reserved for special races, which will be announced later, and \$100 additional to the horse breaking the track record—either trotting or pacing.

American Trotting Association rules will govern the harness races, except where otherwise specified, and the moneys will be divided at the rate of 50, 25, 15 and 10 per cent. The races will be mile heats, best three in five, and no race will be longer than five heats. Money is to be paid in accordance with the summaries at the end of the fifth heat and the first money will only be paid where field is distanced.

Entries close August 27 at 11 p. m., when the horses must be named. Nominations in any class, not filling, may be transferred to the next faster class at the owner's option. The association reserves the right to declare the races off if the weather is bad.

GERMAN CATHOLICS TO MEET AT RACINE

First District Convention of the State Union Will Convene There on Sunday Next.

Racine, Wis., May 24.—The First District convention of the state union of German Catholic societies of the State of Wisconsin, convenes here on Sunday, and will bring about 150 delegates from different sections of the state. There will be a reception at the Casino hall on Sunday evening and later on there will be a concert.

Monday morning the delegates will attend mass at St. Mary's church. The address of welcome will be made by Joseph Mertens, president of the St. Aloysius society, who is also the president of the festival committee. Frank J. Kohman will deliver the English salutatory address.

A sermon in German will be delivered by the Rev. Father George Meyer of Jefferson, and the sermon in English, by the Rev. Father Phil Dreis of Caladenia. A business meeting will be held during the day and the election of officers will take place.

FIVE THOUSAND MEN STRIKE IN GOTHAM

New York, May 24.—Five thousand men employed on the rapid transit tunnels went on a strike today for increased wages. Work is practically suspended. Non-union men are being substituted and the reserves have been called out to prevent trouble.

F. W. Coon of Edgerton was in the city today on business.

Davis Boak, West Virginia; Franklin Wing, Montana; George L. Mason, Massachusetts; Hugo C. Reitz, Wisconsin; W. H. Ware, California; Ralph W. Waddell, Ohio; Frank H. Wolven, New Jersey.

REMAINS OF TANNER TO LIE IN STATE

Funeral Will Occur at Springfield, Ill., on Sunday Afternoon—Flags at Half Mast.

Springfield, Ill., May 24.—The remains of ex-Governor Tanner, who died late yesterday afternoon from Rheumatism of the heart, will be removed from the capitol with military escort and conveyed to St. Paul's pro-cathedral Sunday, where the services will commence at 2:30. The march to the cemetery will be taken up at about 3:30. The body will lie in state in the rotunda of the capitol from 8 a. m. Sunday until the hour of the funeral. Governor Yates issued a proclamation ordering flags at half mast on state government buildings.

LOOTING CHARGED TO AMERICAN LADY

Paris, May 24.—A Pekin dispatch declares the question of loot will continue agitation in diplomacy circles. Friends of Lady McDonald, the wife of the British ambassador, who are charged with looting, assert that the wife of the American diplomat, aided by American soldiers, were guilty of looting. The charge is likely to cause trouble. It is expected that the husband of the accused lady will demand retraction.

M'KINLEY TO START HOME TOMORROW

San Francisco, Cal., May 24.—President McKinley is rushing through his social and public program in order to start for Washington tomorrow. This morning he breakfasted with his niece, Mrs. George Morse, and received the members of the consular corps at the temporary executive mansion. Later he attended a reception at the Palace hotel given by the sons and daughters of the revolution and loyal legion.

Unless Mrs. McKinley is worse the start will be made tomorrow. A man close to the president denies the story that Mrs. McKinley's recovery is due to "absent treatment" by the wife of Minister to China, Conger.

CHARGED WITH SMUGGLING.

Returned Sailors Said to Have Brought Home Dutiable Articles.

New York, May 24.—According to the Herald many of the 500 sailors recently brought home from various ships and stations in Asiatic waters by the United States auxiliary cruiser Buffalo violated the confidence of the officers of the ship by smuggling into this country many dutiable articles of value. Sailors with bands on their caps lettered "U. S. S. Buffalo" have been going around Brooklyn during the last few days offering for sale pieces of Chinese silks, curios of all sorts and particularly some Chinese vases.

CONSTITUTION DOES NOT FOLLOW FLAG

Opinion of Supreme Court Affecting the Insular Possessions.

STATES NOT FETTERED

Territory Obtained by War Does Not Have Right To Enter Union.

END OF THE FAMOUS CONTEST

The Chicago Record-Herald this morning has a special from Walter Wellman at Washington stating that "the decision of the supreme court of the United States is that the constitution does not follow the flag."

"This decision, the most important that great tribunal has ever made, will be handed down next Monday. The court goes back to the period in which the republic was formed and the constitution framed and endeavors to ascertain what was the intent of the founders of the nation."

Apply to States Alone

"It holds that the constitution was drafted by the representatives of the states which afterward became members of the union; that this organic act was ratified by those states; that it applied to them alone; that it had nothing to do with territories, being made by the states for the states. The people of the original states were in their combined action the political power which gave birth to a new sovereign nation, not the people of the territories then in existence or afterward acquired."

Disposes of Uniform Taxation

"The states of the union, therefore the majority hold, and territories or new possessions can be incorporated with the national domain, constitutionally speaking, only through the conscious will of the states, expressed by congressional action in salute or treaty. Acquisition alone is not incorporation."

"I am further informed that the opinion of the majority of the court disposes of the uniform taxation clause of the constitution, which has been invoked by all the appellants in these cases."

No Policy or Politics

"Policy and politics have had nothing to do with the decision. The argument that the founders of the republic had no other thought but that the nation could hold territories or colonies without the constitution, which was urged by the government at the hearing, and supported by many historical citations, therefore had great influence with the learned justices. The facts that the treaties by which the nation acquired Louisiana and Florida provided for tariffs which were not uniform throughout the United States, that it has been the policy and practice of our government to "extend" the constitution to territories by act of congress also had great weight with the court."

MARK HANNA HAS BEEN MADE COLONEL

Mustered Into the G. A. R. and Appointed on the Staff of State Commander.

Cleveland, Ohio, May 24.—Senator Mark A. Hanna is now a full-fledged Grand Army of the Republic man. He was formally mustered into Memorial post, Cleveland, together with eighteen other candidates, with solemn and impressive ceremony and in the presence of a large audience. The audience was made up of representative Grand Army men of Cleveland and posts from all over the state sent delegates to witness the ceremony. An informal reception followed. His title is now colonel as he was appointed on the staff of the state commander.

WHY COTTON MILLS ARE CLOSED DOWN

Stockholders Could Not Agree on a Plan to Put Business on a Paying Basis.

The closing down of the Janesville Cotton Mills was a great surprise to many as the statement had been made several times that the mills were doing a good business. It was the intention of the directors to put in new machinery to cost in the neighborhood of \$40,000 and otherwise to improve the plant so that it would be the equal of any in the West.

At a meeting of the stockholders held on Tuesday afternoon it was decided that the best thing to do was to sell the plant at the best possible figure. The plant cost originally over five hundred thousand dollars and did a successful business for many years.

The business of the last two years has been highly satisfactory to the stockholders who looked forward to another year of prosperity. A change of conditions in the markets has made the outlook less favorable, but even with this to contend with it was thought that the mills could be run at a profit.

Mr. Carney the new superintendent engaged in the East about the first of the year, came on and took charge of the plant. After being here a short time he made a report as to the condition of the mills and suggested a number of improvements that would put the property in first class shape. The cost of these improvements was much more than the stockholders had figured on and it was decided to close down the mills and to sell the plant.

It appears that the real trouble with the plant is among the stockholders they do not seem to be able to strike upon any plan that is satisfactory to all of them, and are against doing anything that will place any more responsibility on them. It is the old story of too many managers and there is hardly a question that if the plant was in the hands of a few people instead of many that it could be operated at a profit.

Mr. Carney was engaged for a year and he has not decided as yet what he will do. He hoped that the mills would continue to run and that they could do so at a profit.

The closing of this plant means a great set back to the manufacturing industries of Janesville. A large number of hands have been thrown out of employment, many of whom were the heads of families. The city can ill afford to have a plant of this kind that distributes a large sum of money every month through its employees to the business interests of the city stand idle.

WITH THE PROCESSION.

The people who get the most out of life, in the way of contentment, pleasure or profit, are the people who keep up with the procession. This is true of every department of activity.

The industrial procession is the largest and has connected with it a greater variety of talent, and a more complex constituency, than any other. It has at the head of it well developed brain and inventive genius, stimulated by great opportunities and backed by unlimited capital, the rank and file possess bone and sinew to execute, and the procession moves forward with rapid stride and steady step.

Occasionally a man drops out of the ranks, or an enterprise fails to catch on as the procession goes by. If a farmer, he argues that old time methods, and old time equipment, is good enough for him, while the procession moves on, with sulky plows, self binding harvesters, and modern appliances.

If a factory industry, the management fails to recognize labor saving machinery, and the thousand one little things that the procession applies to cheapen production, and the race is abandoned, because the procession was too swift.

There is no nation under the sun where the industrial procession moves so rapidly, and progresses so surely, as this nation, that every American delights to call "home." This fact is fully recognized by other nations, and the recognition is of substantial character. The product of American industry is going abroad today at a rate that is a revelation to the old world, and all because we are not only up with the procession, but leading it in many departments of industrial life.

The Baldwin Locomotive Works received an order from England not long since, for nine mogul engines, to be delivered in two weeks. The great shops crowded with 7,000 busy workmen, was loaded with business, but a little more energy was applied, and in ten days three of the powerful machines were on the way, and the balance of the order was filled on time. With the shipment was sent a force of American workmen, to set up and install the engines, because it was cheaper to employ these men at double the wages paid for the same kind of labor on the other side, and all because the American factory, and every man connected with it was, "up with the procession."

The Allis shops in Milwaukee, unsurpassed in this or any other country, in the manufacture of stationary engines, have just completed the largest engine ever made, and are now employed on six more of the same size, the total outfit to be used for the underground service in New York city, representing an order of \$1,500,000.

Why did this order come to Wisconsin? Because the state is up with the procession, and a little in advance in this line of industry.

If the kickers, and strikers, and malcontents of every class, would get in line and go to work, the American procession would move still faster, and its advancing tread no power could retard.

It pays not only to join the procession of life as a camp follower, but to touch elbows with the forces that are constantly forging ahead.

The procession of progress is just now marching through the Bower City. Join the ranks and whistle a cheerful tune, if you can't do anything else to help the good cause along.

AMERICAN SUPREMACY.

One of the men who is just now commanding attention because of the great success that has attended his efforts, the steel car manufacturer of Pittsburgh.

Five years ago the industry was unknown, and Mr. Schenck, the discoverer and inventor, was a poor man, working for moderate wages. Today the plant covers fifty acres of land, employs 10,000 men, uses 1,000 tons of steel per day, turns out 180 finished cars every twenty-four hours, and is behind \$17,000,000 on orders.

That means the revolution of an industry, and a revelation to the world, and back of it is the brain, the energy, and perseverance of a modest American, so modest today when great success has crowned his efforts, that he passes among his men as an every day workman.

The power of money is frequently referred to as the motive power that moves the world, and Americans of the Morgan and Rockefeller type are pointed out with pride, and justly so, as great financiers, but American supremacy today recognizes the Charley Schwabs and Charley Schoens, the Edisons, and men of

this class, whose energies and ambitions have intelligently wrought out the new and practical discoveries, that the world is waiting to apply.

The old world has produced great artists, great singers, and profound scientists, but the new world, intensely practical, has turned its attention to industrial pursuits, and the supremacy gained in this department is universally recognized.

The W. C. T. U. convention is a thing of the past, but Janesville will long remember the earnest women, who discussed the cause of temperance, with so much enthusiasm. The session was profitable, not only to the delegates, but to the city as well. Janesville was honored by the convention and the people of the city wish the organization "Godspeed."

Mr. Bryan is a very busy man, and the more he becomes mixed up with the newspaper business, the busier he will be. He will find less time to work "with the tongue," but no limit to the employment of his pen. If he has anything but satisfaction to show for it, he will be in luck.

General Brooks is going out for statistics on the army canteen. He thinks that drunkenness is on the increase, and proposes to find out through his army officers. It is safe to say that his investigation will be impartial and reliable, and it is also safe to assume that when he is ready to report, the reestablishment of the army canteen will be recommended. Sentiment will not enter into the investigation.

PETER WALDRON IS KILLED BY A TRAIN

Struck by a St. Paul Passenger Due at Edgerton at 8:02 Last Evening—Coroner's Jury.

Peter Waldron, a single man about forty years of age, was struck by the Milwaukee and Madison passenger train in the Prairie du Chien division due in Edgerton at 8:02 last evening.

Waldron had been down to the Rock River railroad bridge about a mile east of Edgerton fishing and was probably on his way home when he was killed. The engineer on the passenger train that struck him said that he did not see him but felt the engine hit something when near the bridge. He thought that it was a dog or a pig and paid no attention to it.

Waldron's body was discovered by the crew of a freight train, which was following the passenger and picked up and carried to Edgerton where he was identified.

The body was not cut up much except around the face. One leg and one arm were broken and the body twisted some. When found he had on but one shoe and it is thought that he was sitting on the end of the ties putting on his shoes when he was struck. Waldron was a drinking man and may have been under the influence of liquor when killed. Judge Smith summoned a coroner's jury to review the remains and the inquest is being held today.

CONSTRUCTION TO BEGIN AT ROCKFORD

Messrs. Clough and Hill Will Push the Work on the Beloit, Delavan Lake & Janesville Road.

The contract for furnishing fence posts along the line of the Beloit, Delavan Lake and Janesville electric railway was awarded to Pendleton & Gilkey of this city. They also secured the contract to furnish about one thousand cedar trolley poles. The promoters of the enterprise met in Chicago Wednesday and let the contracts for furnishing supplies. It is their intention to begin the work of construction as soon as possible.

On account of freight rates the construction work will begin at Rockford and pushed this way. Freight can be handled in Rockford much cheaper than in either Beloit or Janesville and for this reason the road will be built from that end.

Messrs. Clough and Hill are in Ohio where they will have a conference with the backers of the enterprise in regard to Beloit. It is thought that Beloit will get the worst of the deal before they get through, on account of their not giving the railroad a franchise for more than thirty years.

They may get a line through their town but the company will not be foolish enough to build a power house in a city that will be in shape to demand anything of them they see fit, twenty years before their franchises in Janesville and Rockford expire. It is to the advantage of the road to build through Beloit when passenger traffic is considered and it is just as much of an advantage to build around the town if freight is to be one of the chief sources of income.

With Beloit and the towns of Rock and LaPrairie, the road has had a hard time getting anything in the right of way.

The towns of Rock and LaPrairie will not allow them to use any of the highway and want a hundred dollars for each intersecting road that they cross. This is a sample of the manner in which new enterprises are greeted by town boards.

If there are any favors to be shown by the company in the way of locating the power house or the terminus of the Delavan branch, Janesville should certainly be given first choice for they certainly have been given all they asked for in this city and should return the compliment by giving Janesville the advantage of any improvement they can.

Mr. Clough will be in the city the latter part of next week. By that time things will have shaped themselves so he can tell what will be done in regard to Beloit and the town board question.

Elected C. T. Pierce President. The Southern Wisconsin Dental association which closed its session at Delavan yesterday elected the following officers for the ensuing year: C. T. Pierce, Janesville, President; T. Maxwell, Columbus, and J. J. Wright of Milwaukee, vice presidents; J. H. Reed, Lancaster, secretary; and W. G. Hales, Mineral Point, treasurer. The next place of meeting will be at Beloit.

Offered Two Prizes. The Parker Pen company has offered two prizes to high school pupils for essay competition. The first prize, a handsome \$10 pen, will be given to the student writing the best essay of not less than 300 words nor more than 500 words on "Why Should People Use the George S. Parker Lucky Curve Fountain Pen?" A \$5 pen will be given to the writer of the essay ranking second, the competition closing with the end of the present school term. Mr. Parker hopes to get some good advertising suggestions from these essays.

MILWAUKEE WILL SEND A DELEGATE

Janesville State Golf Tournament is Officially Recognized by the Cream City Golfers.

Secretary Baker of the Mississippi Golf club this morning received an official notification from the Milwaukee Country club, signed by D. A. Edgar, secretary. They say that they will send a delegate to the state convention when held. The also recognize the tournament to be held at Janesville on July 18, 19 and 20 as the first tournament of the State League. The cup to be given by the Mississippi Golf club shall be known as the Wisconsin state championship cup.

This really settles the question as to where the state tournament will be held, and all that is now left for the Mississippi club to do is to get the grounds in perfect condition and to make the other necessary arrangements for the matches and the entertainment of visitors.

There is no reason if the work is taken up at once why the grounds cannot be in perfect shape and everything for the entertainment of the guests arranged. These matters should not be left until the last moment when it is too late to do things as they should be done.

The supper for the Decoration day opening will be under the direction of Mrs. Harry W. McNamara and Misses Ruth Culver, Agnes Shumway and Helen C. Nash. It will be of the same standard of excellence as those given heretofore.

Smith's orchestra of four pieces has been engaged for the evening which is in itself enough to assure a good time to all members present. Several members were not on the list of names published yesterday in the married and single men's teams, but all members are eligible to compete in this contest.

J. P. Baker's score in the play for position on the team should have been 104 instead of 194 and F. P. Baker's score was 99 not 89.

MRS. UPHAM TALKS TO THE CHILDREN

At the children's rally at the First M. E. church yesterday afternoon Mrs. Upham gave a very entertaining talk on birds and pleased the children very much by whistling the calls and songs of the various birds, an accomplishment in which Mrs. Upham is very expert. Brief talks on Loyal Temperance Legion work were made by Miss Anna Gordon of Evansville, world's secretary of the L. T. L., Mrs. J. W. Black of Racine, state secretary and J. J. Hooking of Stoughton, state president. Mrs. Black had charge of the meeting and is very hopeful that a Loyal Temperance Legion will be organized in this city at once. The singing by the Presbyterian Juniors was an enjoyable feature of the meeting.

Mrs. Harriett A. G. Chapin. The funeral of Mrs. Harriett Ann Chapin will be held from the family home in the town of Janesville on Sunday, May 26th at two o'clock p. m. Rev. Robert C. Denison of the First Congregational church of this city will officiate.

After four weeks of intense suffering and pain, Mrs. Harriett Ann Townsend Chapin has passed into rest. She was the widow of Hugh Chapin, who was called home about a year ago, on the anniversary day of their forty-second year of married life.

She was the daughter of Consider Townsend of Scranton, Pa., one of a family of twelve children; only one sister, Mrs. Adam Shoemaker, and two brothers, Benjamin and Jacob, surviving her.

She was born on December 9, 1833 near Scranton, Pa. On April 18, 1858 she was married to Hugh Chapin. To them were born four children: Cora May, Albert, Arthur, and Lillian. There are also four grandchildren: Hugh C. Hemmingway and Charles Hubbard and Cora Stark, besides a large circle of friends and acquaintances to mourn her loss.

City Council Monday.

The ordinance, taking a part of the Third Ward away and adding it to the Second Ward, will come up for passage at the meeting of the council next Monday evening. The appointment of an assistant street commissioner will also be made. This will be a good investment for the city, if the inspection of sidewalks, which will be one of the chief duties of the officer, are well attended to.

ST. PAUL OFFICIALS INSPECT TRACKS

A number of Chicago, Milwaukee & St. Paul officials were in the city yesterday and this morning inspecting the tracks and buildings to get an idea what is necessary to be done in order to handle the increased traffic which will come with the opening of the Janesville & Southeastern. They had a special of two coaches and had just returned from a tour of inspection of the lines west of this place.

Superintendent J. F. Gibson and superintendent of bridges and buildings, A. H. LaFontaine in company with Agent W. A. Johnson, took the switch engine and tested the electric alarm bell at the road crossing at Center avenue, south of the Monterey bridge. They tested it thoroughly and found it in good working order. The watchman for the crossing will be put at work as soon as the road opens for the general traffic.

Those who were in the party were Assistant General Manager W. J. Underwood of Chicago, Supt. J. F. Gibson of Chicago and A. H. LaFontaine, Gen. Manager Underwood and Supt. Gibson left at twelve o'clock for Chicago over the new line and Asst. Gen. Supt. Bush went to Milwaukee.

The time card for the new line will be out in a day or two and a number of very important changes will be made in the trains between this city and Chicago.

REVISION TALK IS BEGUN

Presbyterian General Assembly
Listens to Learned Leaders.

SIX SPEECHES PRESENTED.

Dr. Herrick Johnson Favors a Change
in Creed, Intimating That It Is Not
Up to Date—A Big Crowd in Attendance.

Philadelphia, May 24.—The great creed revision debate began in the Presbyterian general assembly in the morning and drew an immense crowd to Calvary church. Within ten minutes after the doors were opened at 8 o'clock every seat except those reserved for the commissioners, every window-sill and nearly every foot of standing room was occupied. Six speeches were made—three supporting revision and a new creed, one favoring revision but not the new creed, and two opposing any change in the present standards. It is believed that a vote will be reached tomorrow, and the statement was made on the floor of the assembly today that 250 of the 640 commissioners came here prepared to vote for a dismissal of the substitute. Dr. William McKibben of Cincinnati read the minority report, which favored the proposed revision, but opposed the new statement which the majority had recommended. The majority report was signed by thirteen members and the minority by two.

Dr. Dickey Talks.
Dr. Charles A. Dickey, chairman of the committee on revision, spoke for forty minutes, upholding the committee's recommendations. He declared the dismissal of the whole question would not answer when so many presbyteries demanded some change, and thought the assembly should be willing to do that which is safe and consistent, which does not reproach the past and which casts no dishonor on the church. He added: "They tell us that the committee's report is indefinite. I think it exceedingly clear. The report says the change must be such as not to impair the confession of faith. That is plain. It is claimed that a change might interfere with somebody's liberty. We want the liberty of feeling and knowing that the confession of faith means that God saves His children and that God's love embraces the whole world."

Dr. Johnson for Revision.
Rev. Dr. Herrick Johnson of Chicago presented a careful analysis of the confession, showing why certain statements should be eliminated, and asserting that some truths not contained therein should be added. No one would deny, he said, that the confession of faith was a human document, and therefore subject to error. Dr. Johnson continued: "I have no attack to make on the creed. I wish calmly and dispassionately to investigate what it contains and what it does not contain. They wrote some things in it which we do not believe to be true and failed to write some things which we hold to be true. They wrote of the pope: 'That anti-Christ man of sin and son of perdition.' We repudiate that, and why should it be allowed to remain? We have had the creed 250 years and will be following the footsteps of the Westminster divines if we make a new one. The way is open to us to do as our Westminster fathers did. What liberty had they that we do not possess?"

MOTHER AND CHILD

Let the mother take Scott's emulsion of cod-liver oil for the two; it is almost never superfluous.

One can eat for two; but nourishing two is a different thing; it implies a degree of interior strength not often found in woman of either extreme.

Luxurious people are not very strong by habit, and overworked people are weak from exhaustion in some of their functions. Between the two is the happy mean; but how many women have plenty of life for two?

The emulsion is almost never superfluous.

ner, offered by Mrs. Emma W. Shores of Ashland to the county doing the most thorough and efficient work among the lumbermen was presented to Rock county.

The chorus choir of the First M. E. church sang "The Lord Reigneth." The choir is a splendid one and sang beautifully, Miss Ada Pond being the organist.

Address by Miss Hunt

The address of the evening was given by Mrs. Mary H. Hunt of Boston, Mass., and was generally considered to be the strongest, most logical and most reasonable address of the convention. Mrs. Hunt has been for many years devoting her energies to securing scientific temperance instruction in the schools. She insists that the only hope for total abstinence is in education which must precede legislation.

She declares that prohibition must be a result and not a cause; that a government of the people cannot prohibit the sale of beverages that the majority of the people want to drink. The education of the people in scientific truths is the only hope for the future. She urged a deeper scientific investigation, especially on the part of university men, as to the real effects of alcohol on the system and its power to decrease man's working ability.

A scientist in Europe by experiments with an ergograph, has demonstrated that a man's lifting power is decreased as much by a glass of beer as by a day's work. Scientific alcoholic investigation is being carried on by the various governments of Europe and there is great need of such an investigation in the United States.

The investigation should be unbiased by religion or politics, honest and earnest and the results should be taught to the people, especially to the children.

When the people know of the scientific truths concerning alcohol there will be small need of legislation for the deceased patronage of the saloon will make it an unprofitable business. Nevertheless legislation can be secured for the majority of the people knowing the truth, will be total abstinence.

As this work of education can be best accomplished through the schools and as it is the teachings of scientists alone which are taught, every effort should be made to keep scientific temperance instruction in the schools. It is against this effective method of temperance work that the liquor element is directing all its effort.

Mrs. H. S. Hastings of Green Bay made a unique collection speech and Mrs. Vie Campbell of Evansville made an eloquent plea for new members for the local W. C. T. U. Cards were circulated and several new members were secured.

Mrs. Sanderson of Ripon recited "A Song" by James Whitcomb Riley so pleasingly that she was obliged to respond to an encore and she gave a humorous bit of Irish dialect.

Arthur Clark played an euphonium solo, "Nearer My God to Thee," which was very much enjoyed. Miss Elva Crawford played the piano accompaniment.

The meeting was closed with the benediction by Rev. Hall.

The news did not reach Nome until early in February. The first white baby girl ever born in the Rampart camp was born on March 9 to Receiver and Mrs. W. R. Edwards.

To Reject R. port of Gomez.

New York, May 24.—It has been shown, says a dispatch from Havana to the Tribune, that the Cuban constitutional convention will reject Gualberto Gomez' report as the first step toward accepting the Platt amendment. He urged that if the convention held out and refused acquiescence to the amendment Cuba would be in a position to appeal to the world and ultimately would gain absolute independence.

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.
